

Stanton County

Estimated Economic Impact of Agriculture, Food, and Food Processing Sectors

6/14/2018

Using the most recent IMPLAN data available (2016) adjusted for 2018, 11 agriculture, food, and food processing sectors were analyzed to determine their overall contribution to the Stanton County economy.¹

These 11 sectors have a total direct output of approximately **\$103.7 million** and support **400 jobs** in Stanton County. Running the model for all 11 sectors simultaneously produces the following results:

Agriculture, Food, and Food Processing Sector Contribution to Overall Stanton County Economy						
Impact Type ²	Employment	% Employment	Total Value Added ³	Total Value Added % of Gross Regional Product ⁴	Output ⁵	Output % of Gross Regional Product
Direct Effect	399.7	25.47%	\$18,470,313	17.84%	\$103,705,275	100.16%
Indirect Effect	152.3	9.71%	\$10,663,056	10.30%	\$18,878,054	18.23%
Induced Effect	35.8	2.28%	\$2,683,916	2.59%	\$4,726,707	4.56%
Total Effect	587.7	37.46%	\$31,817,286	30.73%	\$127,310,036	122.95%

As shown in the above table, agriculture, food, and food processing sectors support **588 jobs**, or **37.46%** of the entire workforce in the county. These sectors provide a total economic contribution of approximately **\$127.3 million**, roughly **122.95% of the economy**.

Another metric used to calculate the importance of sectors in an economy is their value added as a percentage of GRP. Total value added by the 11 agriculture, food, and food processing sectors is approximately **\$31.8 million**, or **30.73% of the GRP**. This indicates that personal income, business income, and taxes generated by these sectors account for **30.73% of the total economy**.

The following tables document the top industries affected by employment and output, as well as a listing of all industries that were analyzed.

¹ Article on building a contribution analysis in IMPLAN that avoids double counting:

http://www.implan.com/index.php?option=com_content&view=article&id=660%3A660&catid=253%3AKB33&Itemid=70

² Direct, indirect, and induced effects sum together to estimate the total economic contribution in the state. **Direct effects** capture the contribution from agricultural and food products. **Indirect effects** capture the economic benefit from farms and agricultural businesses purchasing inputs from supporting industries within the state. **Induced effects** capture the benefits created when employees of farms, agricultural businesses, and the supporting industries spend their wages on goods and services within the state.

³ Value added = labor income + indirect business taxes + other property type income.

⁴ GRP = final demand of households + governments expenditures + capital + exports - imports - institutional sales.

⁵ Output = intermediate inputs + value added.

In the top ten agriculture, food, and food processing sectors by employment, the beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming sector is the top employer with **165 employees**. This table also shows the amount of jobs that are created by the agriculture industry in Stanton County.

Top Ten Agriculture, Food, and Food Processing Sectors by Employment		
Sector	Total Employment	Total Output
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	165.1	\$26,051,906
Grain farming	157.2	\$68,616,677
Support activities for agriculture and forestry	54.8	\$2,789,640
Wholesale trade	37.6	\$8,105,956
Animal production, except cattle and poultry and eggs	34.3	\$4,040,129
Landscape and horticultural services	22.1	\$1,103,519
Dairy cattle and milk production	14.3	\$2,760,722
Truck transportation	8.3	\$1,161,591
Maintenance and repair construction of nonresidential structures	8.2	\$686,872
Securities and commodity contracts intermediation and brokerage	7.6	\$399,295

The grain farming sector directly contributes approximately **\$68.6 million** to the Stanton County economy. The table below also shows the amount of revenue that is generated in other industries by having a strong agriculture industry.

Top Ten Agriculture, Food, and Food Processing Sectors by Output		
Sector	Total Employment	Total Output
Grain farming	157.2	\$68,616,677
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	165.1	\$26,051,906
Wholesale trade	37.6	\$8,105,956
Animal production, except cattle and poultry and eggs	34.3	\$4,040,129
Support activities for agriculture and forestry	54.8	\$2,789,640
Dairy cattle and milk production	14.3	\$2,760,722
Owner-occupied dwellings	0.0	\$1,405,273
Insurance carriers	3.0	\$1,241,018
Truck transportation	8.3	\$1,161,591
Landscape and horticultural services	22.1	\$1,103,519

Below is a summary of all agriculture data with employment levels and output level. These values can tell how many jobs are represented by each agriculture, food, and food processing sector and the output they contributed to the Stanton County economy.

All Agriculture, Food, and Food Processing Sectors		
Sector	Total Employment	Total Output
Oilseed farming	0.3	\$323,242.88
Grain farming	157.2	\$68,616,677.47
All other crop farming	3.4	\$293,483.44
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	165.1	\$26,051,905.89
Dairy cattle and milk production	14.3	\$2,760,722.29
Poultry and egg production	0.0	\$4,962.91
Animal production, except cattle and poultry and eggs	34.3	\$4,040,129.37
Meat processed from carcasses	0.4	\$206,035.99
Bread and bakery product, except frozen, manufacturing	1.3	\$189,921.09
Veterinary services	1.2	\$114,674.19
Landscape and horticultural services	22.1	\$1,103,518.99

All 105 counties in Kansas have an IMPLAN model and an agriculture, food, and food processing contribution summary. These values do not factor in the retail environment of food sales. Food retail is important, but in order to provide the most accurate picture of what production agricultural and processing contributes to Stanton County, the retail sector was omitted.
